At the mouthly meeting of the City School Board held last night there were present: Capt. Herbert Bryant, chairmar, and Messrs. Thompson, Stabler, Bradsbaw, Thomson, Blothe and the superintendent. Mr. Sabler reported that a request had been made to the City Council for an appropriation of \$600 to improve Lee School lot and \$600 for putting water and water closets in Washington building. Council had made sn appropriation for the Washington building, only, but since then the city engineer had raported that much more than \$600 would be required to install water and water closets in Washington tuilding. The matter was referred back to the committee on schoolbouses and furniture for a report at the next meeting.

Mr. Siabler also reported that the

porch in front of Seaton building had been repaired at small cost.

The superintendent made his monthly report of the working of the schools: Three teachers had been absent from school for a short time, but the schools cit zone of Alexandria in the welfare of had not been closed; no contagious dis- the home, especially as the death of Mr. ease had made its appearance in the schools the rooms had been fumigated and every precaution had been taken to pre-

The superintendent asked the board to consider the proposed meeting in this city of the superintendents and teachers of the Eighth congressional district. They desired to hold this meeting on March 25 26, during the Easter holidays so that it would not interfere with the schools, and about 250 persons would probably be present. He stated that the Young People's Building could be secured in which to hold the meetings, for the expense of lighting and the junitor's pay and that the other expanses for the meeting would be small. Les school building could be used for committee meetings, and that accommodations could be secured for 250 visitors at the hotels and boarding houses at from \$1.50 to \$2 50 per day, all of which data he had furnished Mr. O. G Maphis, distric: exeminer.

The board sanctioned what had been dene in the ma ter by the superintendent. The chairman stated that as this was a superiatendents' and trachers' association affair the board was expected only to defray the necessary expenses of the meeting, etc.

An appropriation of \$25 was made for the purchase by the superintendent of globes for the schools.

An appropriation of \$15 was also made for the purcuese of anterial for use in the colored boys' industrial school in Seaton building and permission was granted for the use of a room in Hallo. inspection at any time. well building in which to hold the monthly meetings of the colored civic improvement league.
